

ENVIRONMENTAL POLICY STATEMENT

We at H R Jasper & Son Ltd manufacture fresh lamb carcasses and offals and provide the highest standards of food safety, legality and quality at all times.

We manufacture and market these products both for domestic and abroad markets. Our purpose is to produce products to satisfy the needs of our customers.

Concern for the Environment is a key part of Jasper's business strategy.

Jaspers will work closely with all relevant statutory bodies to meet all applicable legislation and will seek to make continuous improvements to our environmental performance. The Company shall also endeavour to follow best practice with due regard for its business needs, in line with the requirements of ISO14001:2015 and the expectations of all interested parties

The Directors are committed to the prevention of pollution and good management practice in connection with all our business activities, to achieve our commitment to the environment we will further strive to:

- Continue to improve operator performance by supporting and maintaining an externally certificated environmental management system*
- Operate within all legal obligations, including the control and disposal of animal by-products*
- Prevent pollution by monitoring and controlling interactions with the environment*
- Minimise and manage our energy and water use*
- Increase onsite recycling to reduce quantities of waste to landfill*
- Support local purchasing where possible*
- Ensure that all of our employees are informed and aware of their own responsibility towards protecting the environment and to provide training as part of staff development taking into account their responsibilities*
- Communicate our environmental policy to customers, suppliers, employees and all interested parties*
- This policy will be reviewed at least annually*

Signed

**E K Jasper
Managing Director**
